Dear Bob

Many many congratulations to you and your fellow members for raising an amazing £1,480 to help stop MS as the club's charity for 2017.

This is a tremendous sum to have raised that you all should be very proud of.

Thank you for all that you did to lead this so well.

Enclosed is a certificate of appreciation which I hope will help pass on our thanks to everyone who assisted you during the year and so generously contributed to this brilliant total.

In line with the Club's wishes I will arrange for £1,160 of this tremendous total to be utilised for MS research. As you may be aware, a number of the research projects that thanks to such donations the MS Society is able to fund are at a very exciting stage. We are getting closer and closer to find the cause of the condition and being able to find possible cures. In the meantime we continue to fund cutting edge research into effective treatments and helping people live their lives today.

While we work towards a cure, we'll continue to fight the corner for people affected by MS - demanding the highest quality care and support, wherever they live. The tremendous £320 that the club has donated to our South West Dorset group will greatly assist to accelerate this.

Again, we do very much value everyone's amazing support to help stop MS.

Yours sincerely

Andy Jarrett
